

DUAL BATTERY CONTROL KIT

This kit lets you use two batteries for twice the power, twice the reliability. Ideal for any ATV or Side x Side with a winch, lights, stereo, heater or other 12V accessories. A smart controller reserves the main battery for starting and essential functions. Parallel connection gives you maximum power for long winch pulls, jump starting, and charging. Plus, if one battery is weak, the system automatically charges the battery most in need. All hardware is included for easy installation and the confidence to start your vehicle every time. **PN 77977**

24V WINCH APPLICATIONS

Looking for a winch for your electric ATV or UTV? Look no further than WARN 24V winches. They have all the features of a 12V RT30 or RT40, but with half the amp draw.

24V RT30: **PN 81654** 24V RT40: **PN 87000**

REPLACEMENT WINCHES

In the event you need to replace your WARN Powersports winch, a WARN Replacement Winch can be a cost-effective option. These units consist of the winch's core (motor, drivetrain, brake, drum, etc.), but do not include a winch rope, hook, fairlead, contactor, wire, or control. Simply remove those parts from your previous WARN winch, and you'll be ready to "Go Prepared" again with a genuine WARN winch.

PN 71481 1.5 winch replacement for WARN RT/XT and many ci applications
PN 74915 25/30 winch replacement for WARN RT/XT and many ci applications
PN 74929 40 winch replacement for WARN RT/XT and many ci applications

WARN PROVANTAGE™

PLOW SYSTEM FOR ATVS AND SIDE X SIDES

The WARN ProVantage ATV and Side x Side plow systems have been designed from the ground up to be the most versatile, durable, and high-performance powersports plow systems on the market. They're easy to connect, heavy-duty, and engineered to perform. And with a variety of useful, innovative accessories, they're the most complete plow system money can buy. Features include:

- A variety of heavy-duty plow blades in sizes from 50" to 72"
- High lift height
- Rapid-connect, front-mount system for easy attachment—no crawling under the vehicle
- Plow mount does not interfere with ground clearance
- A variety of accessories to help you get the job done efficiently

PROVANTAGE BUCKET

Turn your ProVantage plow blade into a powerful and versatile bucket loader with this easy to install conversion kit. With a 200 lb. capacity, the ability to move up to five cubic feet of material, and a 60 degree dump angle, you'll be able to get more done in less time. This durable unit is made from sturdy 14 gauge steel with added reinforcement. It's easy to use: The dump release is operable from the driver's seat and, when you lower the bucket, it automatically resets to the "ready" position. A must-have tool for anyone wanting to get the job done.

PN 84133 50" bucket conversion **PN 83133** 54" bucket conversion **PN 85133** 60" bucket conversion

Plow Roller for RT/XT40 Winches

For use on vehicles that use a winch to raise and lower a plow blade, this fairlead has a larger diameter lower roller that reduces wear on the winch's rope. **PN 82550**

EXTREME TERRAIN LIGHTS FROM WARN INDUSTRIES

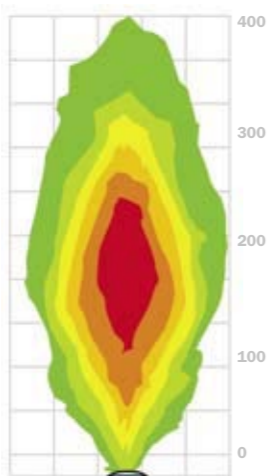

ULTIMATE PERFORMANCE FOR WHERE YOU RIDE

You take your vehicles to the limit: Be sure your lights can keep up. WARN® Extreme Terrain (XT) Lights will stand up to the most demanding situations, from traversing trails to crossing continents. They're compact, rugged, and reliable; delivering outstanding world-class performance, and exceptional durability. Available in HID or Halogen models, these lights continue Warn Industries' tradition of offering no-compromise performance lighting and innovative technology.

WXT400-HID DRIVING LIGHTS

Extreme durability, exceptional performance, and WARN® reliability; these are the ultimate 4" HID lamps. At a mere 18 ounces they'll easily mount on bumpers, light bars, or handlebars. Low-amp-draw 40W HID lamps produce an impressive 3,225 lumens, intensely white 5,550k color, and a wide 22° pattern. They stand up to the harshest environments, thanks to stainless steel hardware, forged anodized aluminum housings, impact-resistant glass, and silicone seals. Installation is easy thanks to a compact shape, integrated ballasts, and through-post wiring. **PN 83555**

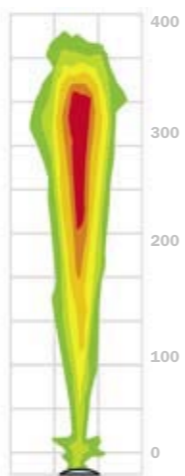

Wide, powerful blast of light—the best way to light the most area.

WXT200-HID SPOT BEAMS

Big HID power, tough little package, and three times brighter than Halogen. Low-amp-draw 30W HID lamps produce an impressive 1,850 lumens, intensely white 5,550k color, and a focused 12° pattern. The ultra compact size, integrated ballast, and through-post wiring mean simple installation. Stainless steel hardware, forged anodized aluminum housings, impact-resistant glass, and silicone seals, mean long lasting durability. These small, extremely versatile HID lights fit a wide variety of applications on or off road, touring or trail. **PN 83552**

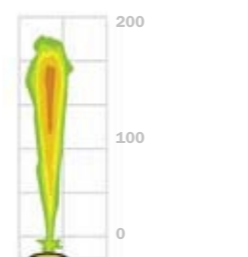

Narrow, intense, and precise for exceptional distance.

WXT200-S SPOT BEAMS

Your extreme halogen spotlights have arrived. Sealed bulbs and welded connectors ensure long life and reliable performance. The 35W bulbs produce 650 lumens and a 12° pattern, offering great range, yet they're easy on your electrical system. With high-grade materials and features, including stainless steel hardware, anodized aluminum housings, impact-resistant lenses, and silicone seals, these lights will stand up to the most intense journeys. **PN 83553**

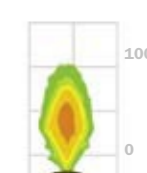

Thin beam of focused light for great straight-line range.

WXT200-F FLOOD LIGHTS

High performance halogen floodlights for low visibility and narrow trail riding. The 35W bulbs produce 650 lumens and a 36° pattern, illuminating a wide path, yet they're easy on your electrical system. Go to the limits with confidence thanks to features such as welded connections, stainless steel hardware, anodized aluminum housings, impact resistant lenses, and silicone seals. Flood the darkest trails with light and go prepared. **PN 83554**

Wide, low beam spread for use in fog, rain, dust, or snow.

Extreme Terrain Silicone Lens Covers

Enhance and protect your WARN Extreme Terrain lights with these durable, functional silicone lens covers. Available in two colors, these covers are easy to put on/take off for cleaning.

- Amber Silicone: Ideal for low-visibility situations, such as fog; amber color is also more visible to oncoming traffic. **PN 83563** (for 2" lights)
- Clear Silicone: Added protection against impact, mud, and dirt, with virtually no light loss. **PN 83562** (for 2" lights)

Each XT light kit contains two lights, mounting hardware, fused wiring, and sealed toggle switch.
